Thank you all for your time, questions, and concerns raised on today's call. I am attaching the Corps memo I mentioned that addresses identifying retained waters for an assumed program. The advisory committee report it references and related information can be found here: <https://www.epa.gov/cwa-404/assumable-waters-sub-committee>

Meanwhile, I've also asked about documents that could be useful from the Michigan and New Jersey programs, and anything we might have from a Tribe that has been interested in assumption. I will send along anything I receive.

Best regards,
Rosemary
